## ABOUT THE ORGANISER

### School of Project Management (SOPM)

The School of Project Management (SOPM), a constituent of NICMAR University, has been established with the objective of preparing specialized human resources to manage and deliver complex engineering as well as non-engineering projects. Its flagship programme, MBA in Advanced Project Management (APM), adopts a multidisciplinary approach blending project management with systems engineering. This equips aspiring

project managers to work confidently across a wide range of industries including oil and gas, software development, energy, manufacturing, infrastructure, and construction, as well as in client, contracting and consulting organizations. Furthermore, sectors like education, healthcare, and rural development also require such trained project management professionals.

### NICMAR Business School (NBS)

NICMAR Business School (NBS), a constituent of NICMAR University, is committed to delivering holistic management education that develops dynamic leaders for the businesses of tomorrow. By creating an immersive and experiential learning environment, NBS helps students explore creativity, build critical knowledge, and develop essential life skills. Its broader mission is to contribute pragmatic solutions to industry and society through cutting-edge research and academic excellence. NBS plays a vital role in meeting industry needs by preparing graduates who are not only academically proficient but also socially responsible.
